IN THE STATES

A LOOK AT GCEE

The mission of the Georgia Council on Economic Education is to help teachers teach economics in the schools of Georgia. Over the years we have found that the most important way we can “help” teachers is by conducting workshops to strengthen their knowledge of economics and their pedagogical skills. It is in the context of the workshops that teachers are introduced to grade-level instructional resources and programs.

In recent years, Georgia has been at or near the top nationally when it comes to the number of workshops conducted and the number of participating teachers. In 2014, the Georgia Council conducted 115 workshops for 2,081 teachers. All of the workshops are aligned with the Georgia Performance Standards and Assessments for economics and personal finance. There are innovative workshops and materials at every grade level, from “Upjing Biographies of Great Americans to Teach Economics” in the early grades, to workshops on the economies of specific regions of the world in the middle grades, to workshops like “The Economics of Sports” to help make economics an exciting subject to study in high school.

Three keys to success in scheduling and filling the workshops are (1) on March 31st, over 80 guests joined us for our Vantage Point: Real World Perspectives on the Economy Symposium. CEE President & CEO Nan J. Morrison and emcee Kelli Grant of CNBC opened the proceedings, followed by Gregory Mankiw’s keynote speech exploring the dominant economic trends and factors influencing income inequality. CEE Board Chair Barry Halimes hosted the Energy Outlook Panel, joined by William A. Featherston of UBS Investment Research and James W. Stone of Barion Funds. The two star analysts gave audience members a picture of developments in the energy markets and shared their expert forecasts for the year to come. Following, Prof. Charles W. Calomiris of Columbia Business School, in conversation with Prof. Richard E. Sylla of NYU Stern School of Business, presented “Fragile by Design: The Role of Politics in Banking Crises and Scarce Credit.” Prof. Calomiris neatly balanced Prof. Mankiw’s keynote by detailing the instrumental forces that shaped the United States banking system, which were almost entirely political and driven by competing economic interests locked in a volatile relationship. Kelli Grant returned to lead the closing “Update from the Fed” panel, interviewing President Esther L. George of the Federal Reserve Bank of Kansas City. President George discussed the Fed’s enduring relevance, addressing the implicit necessity of trust in its supervisory abilities and the many challenges it faces.

Special thanks to our generous sponsors:

Karen Grant, Prof. Gregory Mankiw, Prof. Charles W. Calomiris, CEE Board Chair Barry Halimes, Nan J. Morrison, Prof. Richard E. Sylla, William A. Featherston, and James W. Stone

CxEE ACTIVITIES

NEW IN EDUCATIONAL TECHNOLOGY: EconEdLink RELAUNCH

CxEE is excited to announce that it has launched a new and improved EconEdLink, redesigned to better showcase our resources and to provide easier navigation and a faster, simpler way for teachers to find what they need when they need it. Key features of the new EconEdLink include:

• Teacher Quick Start Kits: A group of lessons by grade level specifically selected for educators to easily incorporate teaching personal finance and economics into their classes.

• Simplified Search: A new-and-improved search tool allows teachers to easily search content according to grade level, subject, and more.

• Teacher Tools: Lesson series like Math in the Real World and testing tools like the Online Assessment Center will be available when you register on EconEdLink – it’s free!

• Topical Modules: Coming soon, new lessons and tools based on relevant, interesting themes culled from real-world events such as the Economics of Energy and the Economics of Sports. Special thanks to EconEdLink’s lead sponsor Fidelity for their initial support and to the Daniels Fund for their $500,000 grant to continue to grow this online resource.

GEN i REVOLUTION: A NEW MISSION AND PARTNERSHIP

Through its spring 2014 Sweet 16 Contest, CxEE challenged students to come up with the best idea for a new 16th mission for Gen i Revolution. The winning entry, on risk and insurance, was created by a team of five students from M.T. Blount High School in Eight Mile, AL. Allen Merryman, a Career Tech Teacher at M.T. Blount, served as the team’s sponsor. The team’s mission topic on the importance of insurance has now been realized as a fully functional mission of Gen i Revolution! In Mission 16, students will learn to understand the concept of risk, how to best avoid, reduce or share risk in various situations, how to select the right type of insurance, and how policies work.

TEACHER TRAINING FROM THE NATIONAL CENTER: HIGHLIGHT ON MATH

The National Center for Economic and Financial Education continues to expand its activities, training more than 4,000 teachers in 2014 through in-person workshops, webinars and conferences. As part of the launch of the Math in the Real World lessons on EconEdLink, we are conducting workshops specifically for middle and high school math teachers this year. We are also emphasizing the math connections in economics and personal finance at the elementary school level, with workshops such as K Thru 2 Can Do! Math and Economics and Financial Fitness for Life. For more information about the Center’s workshops, please visit http://go.sae/1C00fOc.

FINANCIAL LITERACY MONTH

April was Financial Literacy Month, and CxEE and our network of affiliates continued to lead the way in raising awareness of the importance of economic education and financial literacy. CxEE’s President and CEO, Nan J. Morrison, kicked off the month by participating in a panel conducted by Higher One to highlight the results of their Money Matters on Campus survey. Nan urged the audience to “make sure our young people are anchored in a sound understanding of the economic and financial landscape they face in the 21st century.”

Throughout the month, we shared perspectives from some of the leading voices in the field on our blog, including members of Congress, CEOs, teachers, and nonprofit leaders. We also partnered with Bedtime Math to feature a series of financial literacy-themed math problems for parents to do with their children. Special thanks to our contributors for helping to bring greater visibility to the need for financial literacy education.

Around the country, our affiliates worked diligently to promote financial literacy through teacher workshops, student competitions, and social media to promote our work. CxEE and our affiliates used social media, newsletters, press releases, and other forms of outreach to publicize our efforts and free resources during the month of April, resulting in 40 national news articles and dozens of local news stories.

ADVOCATING FOR ECONOMIC & FINANCIAL LITERACY

Delaware Declares Teach Children to Save Week

Delaware Governor Jack Markell (center, standing) speaks to students after signing a proclamation declaring Teach Children to Save Week, an effort led by the Delaware Center for Economics Education and Entrepreneurship.

Georgia Proclaims Financial Literacy Month

Georgia Governor Nathan Deal (front center) proclaims April as Financial Literacy Month at the Georgia Capitol with David Martin, Executive Director of the Georgia Council on Economic Education (center), and other members of the Georgia Consortium for Personal Financial Literacy.

Nebraska Brings Financial Literacy Education Through Rock Concerts

The Nebraska Council on Economic Education sponsored performances by the band Goong – which pairs rock concerts with financial literacy presentations – at three Nebraska high schools and the University of Nebraska-Lincoln; high school students and Jennifer Davidson, President of the Nebraska Council on Economic Education (back row, third from the right), pose with the band.

Marsha Masters, from CxEE affiliate Economics Arkansas, demonstrates the compound interest calculator from EconEdLink to 7th graders as part of a day-long financial fitness program.

Students look on during the Money Fair Project, an initiative led by CxEE affiliate Economics Wisconsin.
2015 National Economics Challenge Winners

Over 10,500 students from across the U.S. competed in the 15th Annual National Economics Challenge. Eight teams won both state and semi-finals competitions in their respective divisions, defeating students from 41 states to advance to the finals. The finals, held at the Crosby Street Hotel, were co-hosted by CNBC Senior Economics Reporter, Steve Liesman. This year’s Challenge also included special guest video questions from Ben Bernanke, former Chairman of the Federal Reserve.

The final round was covered live on CNBC’s Power Lunch and CNBC’s Nightly Business Report.

“NEC has provided teachers so many great resources over the years. I’ve used many of the lessons in the curriculum packages...I’m a better teacher and a more enthusiastic economics teacher because of the resources the NEC has provided!”

Michele Foutz, Teacher Coach
Carmel High School, IN

“My experience with the National Economics Challenge was absolutely amazing. It motivated me to study in a team dynamic about Macroeconomics, Microeconomics, and current events.”

Erik Yang, Homestead High School, CA
2015 NEC Champion in the David Ricardo Division

David Ricardo Division

THE CEE REPORT | SUMMER 2015

**CEO CORNER**

Note from Nan

To increase the reach and impact of our mission, we must engage students, create great partnerships and be visible to our market. So far in 2015, we are hitting it out of the ballpark on all fronts.

We are excited to announce our new partnership with WISE (Working In Support of Education). WISE certification will now be offered in conjunction with our free online game Cents Revolution, in which kids fight back the Markitide by mastering concepts in economics and financial education.

On April 28th, CEE partnered with 100 Women in Hedge Funds to co-host Brigitte Madrian, Aetna Professor of Public Policy and Corporate Management, Harvard Kennedy School, in discussion with Samantha Kappagoda, Chief Economist and Co-Founder of Risk Economics, Inc. and CEE Board Member. Brigitte discussed her research on the economics and psychology of individual and household financial decision making. Special thanks to Schulte Roth & Zabel for hosting the event.

**IN THE STATES**

A LOOK AT GCEE

The mission of the Georgia Council on Economic Education is to help teachers teach economics in the schools of Georgia. Over the years we have found that the most important way we can “help” teachers is by conducting workshops to strengthen their knowledge of economics and their pedagogical skills. It is in the context of the workshops that teachers are introduced to grade-level instructional resources and programs.

In recent years, Georgia has been at or near the top nationally when it comes to the number of workshops conducted and the number of participating teachers. In 2014, the Georgia Council conducted 115 workshops for 2,081 teachers. All of the workshops are aligned with the Georgia Performance Standards and Assessments for economics and personal finance. There are innovative workshops and materials at every grade level, from “Uping Biographies of Great Americans to Teach Economics” in the early grades, to workshops on the economies of specific regions of the world in the middle grades, to workshops like “The Economics of Sports” to help make economics an exciting subject to study in high school.

Three keys to success in scheduling and filling the workshops are (1) targeted marketing efforts, (2) the fact that the Georgia Council pays for substitute teachers so classroom teachers can attend, and (3) the research that confirms that students in the classes of teachers who attend Georgia Council workshops, score significantly higher on high-stakes tests.

Georgia Economics Teacher of the Year, Anglie Battle, from Kings Chapel Elementary School in Perry, Georgia, put it in perspective when she said of her students, “Economics is the most applicable thing in their personal lives. I want them to see the power in making good choices. Even a little choice they make - such as what to have for lunch - can have an economic impact. It’s all about shaping them into good citizens.” She goes on to say in reference to the Georgia Council, “There is no better support organization to help me do my job.”

VANTAGE POINT: REAL WORLD PERSPECTIVES ON THE ECONOMY SYMPOSIUM

On March 31st, over 80 guests joined us for our Vantage Point: Real World Perspectives on the Economy Symposium. CEE President & CEO Nan J. Morrison and emcee Kelli Grant of CNBC opened the proceedings, followed by Gregory Mankiw’s keynote speech exploring the dominant economic trends and factors influencing income inequality.

CEE Board Chair Barry Halmes hosted the Energy Outlook Panel, joined by William A. Featherston of UBS Investment Research and James W. Stone of Baron Funds. The two star analysts gave audience members a picture of developments in the energy markets and shared their expert forecasts for the year to come. Following, Prof. Charles W. Calomiris of Columbia Business School, in conversation with Prof. Richard E. Sylla of NYU Stern School of Business, presented “Frugile by Design: the Role of Politics in Banking Crises and Scarcity Credit.” Prof. Calomiris neatly balanced Prof. Mankiw’s keynote by detailing the institutional forces that shaped the United States banking system, which were almost entirely political and driven by competing economic interests locked in a volatile relationship.

Kelli Grant returned to lead the closing “Update from the Fed” panel, interviewing President Esther L. George of the Federal Reserve Bank of Kansas City. President George discussed the Fed’s enduring relevance, addressing the implicit necessity of trust in its supervisory abilities and the many challenges it faces.

Special thanks to our generous sponsors:

**CEE AND 100 WOMEN IN HEDGE FUNDS**

Samantha Kappagoda, Prof. Brigitte Madrian, and Nan J. Morrison

On May 12th, CEE hosted Vantage Point: Growing Companies, Growing Women Leaders with panelists: Mollydod Hobson, President of Ariel Investments; Lisa Gersh, CEO of Goop; Barbara Novick, Vice Chairman of Blackrock; and moderator Samantha Kappagoda, Chief Economist & Co-Founder of Risk Economics and CEE Board Member. The panel discussion covered such topics as income inequality, disruption in the tech world, and financial technology.

We also honored CEE Board Member Prof. Annamaria Lusardi of George Washington University with the 2014 William A. Forbes Public Awareness Award to recognize her extraordinary work to advance public awareness of the importance of economic and financial education.

THE CEE REPORT
SUMMER 2015

“By providing a comprehensive economic education to my students, I aspire to empower them to make effective choices as adults when spending money, using credit cards, managing investments, setting up retirement accounts, pinpointing competitive mortgage rates, and a multitude of other financial decisions.”

Darren Gurney
12th Grade Teacher of Economics and AP Macroeconomics
New Rochelle High School, New Rochelle, NY

CEE continues to explain the compelling need for better economic and financial education at the very highest levels of government and commerce, building support for our programs. On June 5th, we convened Advancing Financial Education in New York City at the Federal Reserve Bank of New York, featuring Arne Duncan, Secretary of Education, and John W. Rogers, Jr., Chair of the President’s Advisory Council on Financial Capability for Young Americans, together with NYC leaders in economic and financial education and other members of the President’s Council.

Here are some of the highlights:

In his opening remarks, Secretary Duncan gave a special “thank you” to the “great teachers” of New York City and around the nation for their work.

We at CEE were thrilled to announce our partnership with Working in Support of Education (W!SE) alongside their President and CEO, Phyllis Frankfort. Students completing missions on our free online personal finance game, Gen i Revolution, can now earn a credential by passing the WISE Financial Literacy Certification exam.

Our discussion centered on the need to scale existing successful programs, and the critical role of private-public partnerships in accomplishing that goal. Contributing to the conversation were Julie Menin, the Commissioner of the NYC Department of Consumer Affairs; Eric Contreras, New York City Department of Education; Nan J. Morrison, Council for Economic Education; Dr. Anand Mami; Federal Reserve Bank of New York and Teachers College, Columbia University; and Ruben Rivera, The Urban Assembly Institute of Math & Science for Young Women.

Panelists (from left to right) Amy Rosen, The Public Private Strategy Group, Member of the President’s Advisory Council on Financial Capability for Young Americans; Commissioner Julie Menin, New York City Department of Consumer Affairs; Eric Contreras, New York City Department of Education; Nan J. Morrison, Council for Economic Education; Dr. Anand Mami; Federal Reserve Bank of New York and Teachers College, Columbia University; and Ruben Rivera, The Urban Assembly Institute of Math & Science for Young Women.
